INDIVIDUAL INCOME TAX RETURN INSTRUCTIONS

LINE 1. Enter your wages subject to Marion income tax on line 1 of your return and attach a copy of all applicable W-2's. In general, your taxable wages will equal your Medicare taxable wages shown on your W-2 form with the following additions:

1) Any amount arising from the sale, exchange, or other disposition of a stock option, or other disposition of stock purchased under a stock option if the income is treated as "ordinary income" for federal income tax purposes.

2) Supplemental unemployment benefits if not already included in Medicare wages.

If your wages are exempt from Medicare tax because of your particular line of employment (such as an ordained minister or a government employee hired before April 1, 1986) you will need to calculate your local taxable wages as if your wages were subject to Medicare tax.

If you were only a part-year resident and are prorating your wages for the part-year, please attach an explanation of how you calculated your wages.

If you are a statutory employee, report your taxable on line 1 and your business expenses on line 2.

LINE 2. If you have unreimbursed employee business expenses related to taxable wages, you may deduct those expenses from your wages. To qualify for the deduction, the expenses must be reported on your federal form 2106 or federal schedule C if you are a statutory employee. Attach a copy of your federal form 2106 or schedule C.

If you are a resident individual whose wages are subject to tax in another city, you may deduct your form 2106 expenses from your wages; however, the form 2106 expenses may qualify you for a partial refund of the tax paid to the other city. See instructions for line 7C.

If you are a non-resident individual and only a portion of your wages are subject to tax, you may need to prorate the form 2106 expenses to determine the portion of the expenses attributable to Marion. Attach a copy of your calculation.

LINE 3. Subtract line 2 from line 1.

LINE 4. Enter your net income or loss from business and rental activities.

If you own the activity individually (or through a disregarded entity such as a single-member limited liability company), the taxable income is the net profit or loss reported on the individual's federal schedule C, C-EZ, E or F. Do not include income from a statutory employee. Statutory employees report income and expenses on lines 1 & 2.

If you own the activity through a partnership, limited liability company (which is not disregarded for federal income tax purposes), or other non-individual entity, income is determined by the entity's "adjusted federal taxable income" as defined by the Ohio Revised Code.

If the business and rental activities result in a net loss for the year, enter "LOSS" on line 4. Business and rental losses may not be deducted from wages.

Use Schedule 1 to calculate your net income or loss from business and rental activities.

LINE 5. Add line 3 and line 4.

LINE 6. Multiply line 5 by 2% (.02)

LINE 7A. Enter the amount of Marion income tax withheld by your employers from your W-2 forms.

Extensions of time to file do not extend the time to pay the tax; if you estimate that you will have tax due, you should submit payment of the estimated tax due with your extension request. Taxes not paid by the original due date may be subject to a late payment penalty-15% of the amount not timely paid for all income tax and estimate tax paid. Past due taxes will accrue interest-federal short term rate + 5%. For current year rate, you may contact our office. Returns filed after the due date (including any extensions) may be subject to a late filing penalty of \$25.00 for each month or part of a month late up to \$150.00. Any unpaid taxes, interest and penalties may be referred to the City Law Director for collection.
